aldrinluis73@gmail.com
Zone 2, Barangay Cabuluan, Alcala, Cagayan

OBJECTIVE

Motivated and hardworking Bachelor of Science in Computer Engineering student seeking an On-the-Job Training (OJT) opportunity where I can apply my knowledge in programming, embedded systems, electronics, and database management while gaining practical industry experience. Eager to contribute to organizational goals and continuously develop my technical and professional skills.

EDUCATION

Cagayan State University
Bachelor of Science in Computer Engineering

TECHNICAL SKILLS

- Programming: C/C++, Arduino, SQL
- Database Management: PostgreSQL (pgAdmin)
- Embedded Systems: ESP32, Arduino Uno/Nano
- Software Tools:
- Arduino IDE
- pgAdmin
- Microsoft Office (Word, Excel, PowerPoint)
- Basic Troubleshooting of Computer Hardware and Electronics

ACADEMIC PROJECTS

Arduino Line Follower Robot

- Designed an autonomous line-following robot using Arduino Nano.
- Utilized QTR-8A infrared sensor array for line detection.
- Controlled DC motors through a TB6612FNG motor driver.
- Applied proportional-derivative (PD) control for improved navigation accuracy.

Tapat Kalusugan: Barangay Children Vaccination and Appointment System

- Developed a web-based vaccination management system for barangay health centers.
- Implemented appointment scheduling, vaccination record management, and user authentication.
- Integrated automated notifications, vaccine inventory monitoring, and report generation.
- Collaborated in system testing to ensure functionality, performance, security, and usability.

KEY SKILLS

- Problem Solving
- Critical Thinking
- Teamwork
- Communication
- Time Management
- Fast Learner
- Adaptability
